**Campaign Spending:** [List of Filers](#)

Bruce Pleas, a resident of Kauai since 1972, has become extremely concerned about the direction Kauai is heading. Since 1998 he has been a public participant in the writing of the 2000 Kauai General Plan, a member of the Single Family Vacation Rental Meeting Series along with attending and participating in County Council meetings, Planning Commission meetings, Coastal Zoning Management meetings, Rural Planning meetings and many other diverse type of meetings that cover the type of information needed to provide an insightful and intelligent vision needed for Kauai's future.

Access is being denied to residents of Kauai to the mountains and beaches with historical access routes to the mountains and beaches and lateral access along the shoreline needing to be guaranteed by the County for residents to hunt, fish and surf.

Rents and land prices have far exceeded the incomes of most local residents with housing for local residents needing to be made available by requiring that every development contribute to a fund that will enable the County to buy, develop and provide land for housing at an affordable cost for the local residents to live on.

Traffic is a main concern on all sides of Kauai with the infrastructure needing to be upgraded to accommodate the present level of traffic and preferably the future level of traffic on Kauai's County roads so that local residents and visitors alike can move easily from one place to another.

Sensible, simple and swift implementations of solutions to our problems are needed now.
